

1 INTERVIEW OF RONALD PAUL ANGELL

2

3

4 Q. This is Deborah Tavares with StoptheCrime.net.

5 Today is May 15, 2014. I'm happy to introduce my guest

6 this evening. This is Ronald Paul Angell. And we're

7 going to be discussing the topic of global catastrophe

8 and the need for a global wake-up call, and about why

9 chemtrails exist, why the populations globally are

10 experiencing increased diseases, and what you need to

11 know about these calamities that we all face.

12 So I want to welcome you, Ron, to the program.

13 A. Thank you.

14 Q. And if you would just like to cover this
15 global catastrophe, and talk about why chemtrails exist,
16 and why we're experiencing heightened levels of diseases
17 and immune assaults upon our systems.

18 A. Okay. Well, it gets back to a paper that is
19 talking about directed-energy radiation. That is the
20 missing link, you could say, as to why the chemtrails
21 are being used along with the EMF radiation from the
22 cell towers, the GWEN towers, the radio transmission
23 towers, the weaponized power grid-Smart meters, cell
24 phones, street lights, energy-saving light bulbs, street
25 signal crossings, Energy Star appliances and the

1 satellites.

2 And this U.C. Berkeley paper from the Research
3 Medicine and Radiation Biophysics Division, Lawrence
4 Berkeley Laboratory, University of California, Berkeley,
5 California, 94720, was put out July 1991. And it is a
6 paper entitled Electromagnetic Field Effects on Cells of
7 the Immune System, the Wall of Calcium, Ion Plus Two
8 Extra Electron Signaling.

9 And this came out, and they were analyzing
10 different effects of radiation on biological systems.
11 Let's learn more about this on the cover page. By the
12 way, this copy has been removed from the public by
13 U.C. Berkeley. I had downloaded this in 2008, and gave
14 it to as many people as I could. But this here says

15 it's the master copy. The distribution of this document
16 is unlimited right on page 1 of the pdf that I have sent
17 to you.

18 Q. Now, Ron, what I will be doing is right below
19 the audio link, we will have this document available for
20 people to open and take a look at.

21 A. That's wonderful.

22 Q. So I'm just going to advise everybody that is
23 listening now that you can find this document within
24 this discussion.

25 A. And this work was supported at the Direct

1 Office of Energy Research, Office of Biological and
2 Environmental Research, medical application,
3 U.S. Department of Energy, the Contract Number
4 DE-AC03-76FS00098 (SEE ATTACHED U.C. BERKELEY RESEARCH
5 DOCUMENT).

6 And so I've also included a cover page that
7 could go along with this as well. And that was actually
8 a screen-capture of where this was located at one time
9 on the electronic library at U.C. Berkeley. This is
10 interesting. I'm going to read a two-page pdf, sort of
11 the identifiers. It has an OST identifier.
12 OST ID 5261345.

13 Q. Now, what I would like you to do, too, as you
14 discuss this, Ron, there may be listeners that are
15 unfamiliar with the vernacular that is being used.

16 A. Sure. Okay.

17 Q. So if you could just really break that down.

18 A. Okay. These are just report numbers that, at

19 one time, you could go into a library and find this

20 document.

21 And this conference was actually presented in

22 1991 at the 75th annual meeting of the Federation of

23 American Society for Experimental Biology, the FASEB, in

24 Atlanta, Georgia, 21st through 25th of April, 1991.

25 The sponsoring organization that sponsored

□

1 this research was the DOE, the Department of Energy, and

2 the U.S. DOE, the U.S. Department of Energy, Washington,
3 D.C.

4 And this is a little quick description
5 abstract of what we're going to be talking about in
6 depth today is the cover page that I screen-captured
7 before it was taken down. It says here:

8 During the past decade, considerable evidence
9 has accumulated demonstrating the exposures of cells of
10 the immune system to relatively weak, extremely
11 low-frequency (EMF) electromagnetic fields under 300
12 hertz -- or less than 300 cycles a second -- that can
13 elicit cellular changes which might be relevant to
14 cellular immune activity. However, knowledge about the
15 underlying biological mechanisms at which it will induce
16 changes is still very limited. It is generally believed
17 that the cell membrane calcium with two extra electrons

18 in-valence shell regulated activities involved in
19 bioactive of field coupling of living organisms.

20 There's a little more to that title. But what
21 we're seeing here, I know that there are calcium ions in
22 the chemtrails with two extra electrons. And that is
23 for controlling organs and biological systems.

24 And now I'm going to actually go through some
25 of this paper, and I'll name the page as we're there.

4

□

1 what's taking place is they're creating
2 diseases randomly based on electromagnetic frequencies,

3 the GPS location of where you're sleeping or living, to
4 create a mass-genocide operation of covert holocaust
5 globally now with the satellite systems, as well as the
6 GWEN towers, the cell towers, the weaponized power grid,
7 coupled with smart meters that allow superimposed
8 signals to go over the household wiring and earth ground
9 to a client who is in a home who also have
10 electromagnetic frequencies that can adversely affect
11 our bodies and minds negatively.

12 And this is in my interpretation before I read
13 this paper. And so this is the very key beginnings of
14 their revealing of what their intent was with these sort
15 of research documents.

16 And it's imperative that we understand that
17 the chemtrails coupled with EMF radiation, along with
18 other chemicals in the chemtrails, which have not been

19 revealed within this research paper -- such as barium,
20 beryllium, iodide 11, 12 and 13, different isotopes of
21 iodide -- are causing certain other individuals to gain
22 control with very advanced super-computers and far
23 infrared and pulsed infrared radiation (INTERNET SEARCH:
24 INFRARED INTERFACE TO THE HUMAN BRAIN).

25 And so we also have to take into consideration

5

□

1 that certain food products, i.e., for example, fortified
2 milk may be laced with ionic forms of calcium and other
3 unknown elements that are also adversely affecting
4 humanity.

5 Q. So how would you say that the fluoride and the
6 chlorine in the water supply is affecting the assaults
7 upon our body with the electromagnetic frequencies? Do
8 you have any opinion?

9 A. Not in this paper. I'll look at that for
10 another date.

11 Q. Okay.

12 A. But I know the fluoride is actually causing a
13 lot of dumbing-down and memory loss. There are
14 different aspects. We can go into that. We do know
15 that fluoride was used in Europe prior to World War II
16 and caused an awful lot of brain-washability allowing
17 people to do things they normally wouldn't do.

18 Q. Right. Their minds became very malleable.

19 A. Malleable. And I do know that they were
20 issued radios, and those early radios did emit

21 frequencies that put people in a hypnotic state where
22 they could be brainwashed with an audible voice.

23 The leader of Nazi Germany, Adolf Hitler,
24 would broadcast and control people's minds with the
25 radio. Those were early tools to brainwash and control

6

□

1 people on a mass scale. And the radios themselves did
2 emit frequencies, and they did get people to do what
3 they wished, and they normally wouldn't act that way.

4 And so that probably could be an entire
5 research project or radio show. But I do know that that

6 has something to do with what happened. But let's stick
7 to this wonderful pdf paper from U.C. Berkeley that
8 exposes the crime of random hidden genocide through the
9 medical profession. And I'm going to go down on this
10 paper.

11 The biological effects of low-energy
12 electromagnetic fields has fascinated scientists for a
13 long time, it says on page 5. But it is only during the
14 past decade that the study of EMF interactions with
15 whole organisms are isolated, so they're becoming an
16 increasingly recognized area of research with the
17 biological sciences.

18 And it talks here, Evidence has accumulated
19 demonstrating the efficiency of low-energy pulse
20 magnetic fields in medical therapy.

21 And then it also says here, There is now a

22 growing demand for the study of possible adverse health
23 effects from interaction between the human body and
24 electromagnetic frequencies, for example, generated at
25 50 and 60 hertz high-voltage transmission lines, video

7

□

1 display terminals, electric blankets, for clinical and
2 MR imaging producers.

3 Q. And that's on page?

4 A. That's on page 5. So in the big picture here,
5 we need to understand that the chemtrails are not just
6 to make it rain, as we have been told. They were under
7 the disguise of causing rain for crops and food

8 production.

9 There's negative elements in these chemtrails
10 that we need to make sure are not included, and
11 guaranteed not to be included, if they are going to go
12 along with their weather modification program that's
13 been around since 1923. And the weather modification
14 has been highjacked with these negative technologies and
15 biochemical weapons that are being sprayed on humanity.

16 And we need to recognize and wake up to the
17 fact that we're under massive assault with all of the
18 different radio towers and GWEN towers and cellular
19 towers, as well as the phone transmissions that work on
20 a system of drums and cones where they are
21 transmitting -- formerly land lines, they use copper
22 lines -- transmitting to many towers with microwave
23 transmission on the station that can also be described

24 as weaponized systems on the human race, not just in
25 California, but throughout the globe with these

8

□

1 satellite systems that have been put in place by NASA
2 with the space shuttles.

3 And those were not just pure research science
4 applications. Those were a bigger picture of infrared
5 and NMRI brain-pattern recognition whereby they're
6 actually able to locate people from space with these
7 infrared imaging satellites that were originally
8 developed for finding life on Mars.

9 These were turned on the globe in and around
10 2000, and they can track everybody's bio fingerprint.
11 Everyone has a unique life pattern. And that, combined
12 with the fillings in their teeth, they know exactly who
13 is where and what direction they're moving in.
14 Irregardless of an RFID chip, people believe that RFID
15 chips would give them this ability, but they have this
16 ability just with your brain patterns and a
17 super-computer.

18 Q. And you were talking about with the fillings
19 in the teeth?

20 A. Well, the super-computer would be a
21 fingerprint of each human. But I've also been told that
22 they're able to fingerprint animals, bugs, insects,
23 birds in the same manner. This is an artificial
24 intelligence.

25 Q. So would you explain to the listeners what you

9

□

1 mean by "artificial intelligence"? And exactly, how is
2 that defined?

3 A. The artificial intelligence is a very advanced
4 super-computer that I was told about four years ago
5 operated at a rate of a 1 with 25 zeroes after it cycles
6 a second. And if you look at the human brain, perhaps
7 the human brain operates anywhere from 60 cycles a
8 second, and Einstein's brain perhaps 300 cycles a
9 second.

10 And so you have a super-computer that was

11 built and developed initially to play chess against
12 Bobby Fischer in and around the '90s, and was able to
13 beat Bobby Fischer and outwit man easily by the end of
14 the 1990s.

15 so the artificial intelligence has been
16 deployed on humanity for different reasons, some of them
17 sinister, which would be coupled with what we're now
18 hearing with a lot of the NSA (MRI) mapping of
19 everyone's brain. well, it's mapping our brain patterns
20 as well as parabolic dishes (MICROPHONES AT THE FOCUS)
21 in space, people can hear our conversations.

22 But it goes deeper. It goes into actually
23 learning the speech patterns of each individual based on
24 what they're saying, either through their phone or out
25 in public if they're speaking. The words are learned

□

1 and the NMRI imaging pattern or MRI is being
2 fingerprinted by this artificial intelligence.

3 Q. Now, Ron, when you say out in public when
4 you're speaking, would you explain to people how they're
5 hearing you out in public?

6 A. Oh, yes. Well, I mean, there's a parabolic
7 dish that they've had in space for quite some time where
8 a microphone is placed at the focus of the parabolic, a
9 microphone being placed at that focus, would then be
10 able to pick up for quite some distance actually
11 (MILLIONS OF MILES). These are the same systems NASA

12 developed for searching other galaxies.

13 There was a disclosure recently in a newspaper
14 article I read. It was in Danbury, Connecticut, and a
15 group called the Hexagon that knew about these
16 technologies in the '50s that everyone could be listened
17 to.

18 In 1953, they had the ability to listen to
19 someone outside in their swimming pool, a full
20 conversation. But they didn't have the computing power
21 to store everything and the data ability. And they
22 didn't have an artificial intelligence that was using an
23 AUDIX voicemail recognition, AUDIX-type system back in
24 '53 (DEVELOPED BY ROSS PEROT). But they have that now
25 where everything that we say, either in public or on the

1 phone, is voice-recognized by this artificial
2 intelligence and catalogue in a database. NASA in Utah
3 and in Maryland fully admitting that they have at least
4 10 years of everybody's activity, whatever they have
5 said.

6 But I believe that AI for certain individuals,
7 probably many of us, is over our whole lifetime, which
8 is a very scary thing and very invasive of privacy. But
9 let's get back to this paper and its true threat to
10 humanity.

11 And that one page, page 4, you want to go down
12 to the page where I was before, I'd like to talk about
13 some of the citations in this document. If you look at

14 page 35 of the pdf document, and citation number 40,
15 researching a paper that I don't have, ADEY, W.R. 1988
16 Cell Membrane Electromagnetic Environment and Cancer
17 Promotion NEUROCHEM.RES.13, Pages 671 to 677 (ACTUALLY
18 DESIGNING CANCER WITH THESE WEAPONS OF MASS
19 DESTRUCTION).

20 Q. Now, I'm going to have this, again, linked so
21 that people can actually refer to what you're
22 referencing, because I'm not certain how audible some of
23 the bits of information is going to be for people.

24 A. I'm sorry.

25 Q. That's okay. Page 40 is good, and everyone

1 can hear that.

2 A. It's page 34 actually.

3 Q. Page 34. Okay. Excellent.

4 A. Through 40.

5 Q. Excellent.

6 A. And it talks about electromagnetic environment
7 and cancer promotion. These are citations that were
8 used in this paper. The calcium ion signaling is able
9 to also shut organs down with certain frequencies in the
10 calcium randomly. And I am almost positive, if not
11 certain, that they're using plausible deniability
12 techniques in the medical field with doctors and nurses,
13 and designing randomized death. And this has gone on
14 far too long. It needs to be exposed.

15 Q. Now, when you say "designing death" in the
16 medical and health fields, could you expand upon that?
17 A. Yes. Basically terminating life before it's
18 time with diseases that are nonexistent if you remove
19 the EMF radiation, or exposed it, and allow the body to
20 heal. And we know that Morgellons in the body, which
21 are nano-fibers and the basis for all disease, as
22 measured in nano-meters (0.00000001 METERS) are
23 crystalline structures that are self-replicating and
24 building up in the cells of the body that form
25 crystalline structures within the brain that have

13

□

1 penetrated the blood-brain barrier.

2 And those crystalline structures are actually
3 creating a two-way transmitter inside the brain
4 fissures, and actually controlling people and making
5 their decision as to what they purchase, where they
6 purchase it, who they associate with, who they vote for.

7 And these technologies that come out to such a
8 degree that they are really literally trying to take
9 over all of our politicians, and all of our citizens in
10 the U.S. and in the world.

11 Q. So this is really a cyborg application just as
12 the NASA war document that we have on StoptheCrime.net.
13 The whole premise of the NASA war plan is about robots,
14 cyborgs and eliminating humans.

15 A. Yes. And those that resist, perhaps, are no
16 longer here. Some of the top-level scientists as we

17 know were actually directed-energy hit. And that's
18 Swissair Flight 111. They flew out of JFK Airport and
19 was pulverized, and pieces were picked up in Peggy's
20 Cove in Canada.

21 But they were the top-10 bioweapons experts on
22 that plane, and that was the plane that was a UN shuttle
23 up to Geneva, Switzerland. These people were going to
24 expose much of these crimes in 1998, but they didn't
25 have the chance.

14

□

1 So many people have been harmed. And those
2 people had entire families on the plane. They just

3 traveled on the same plane together. And, I think, the
4 beginning of the assault was in 1998 because I remember
5 clearly that day. I don't know if people remember
6 Swissair Flight 111. It's pretty certain that it was
7 directed-energy recognized, Star-wars-type weapons were
8 used to bring that plane down.

9 And they were scientists that wanted to
10 disclose and stop the crime. And they are no longer
11 here. So I also believe that this type of weaponry
12 whereby they're creating adverse negative effects in the
13 human biological system with EMF radiation is their way
14 of telling those who need to come forward for truth or
15 to testify in court.

16 It's almost a perfect crime, but we're now
17 able to isolate the mechanisms as to how they're doing

18 it, who is responsible, and how we can wake up to stop
19 this. And how we can wake up to stop it is to bring
20 recognition to the fact that the chemtrails are
21 genocidal operations coupled with EMF and negative
22 radiation.

23 And so we need to wake up the world to what's
24 going on, and also take into consideration that our
25 politicians are probably not at leisure and liberty to

15

□

1 make decisions for themselves based on their own free
2 thought because they're being intimidated or threatened
3 themselves.

4 Q. Now, Ron, a question might arise. We're
5 talking about the chemtrails. We're talking about AI.
6 We're also looking at the reality that the technologies
7 are allowing things to be mechanized where we have
8 drones, and we know that much of the chemtrailing now is
9 done by unmanned vehicles.

10 And so as we step away from the need to have
11 human beings at the control levers, if you will, and
12 things become more mechanized, we as people are going to
13 have less of an opportunity to effect any impact on
14 stopping this.

15 A. There is an off-switch. The artificial
16 intelligence was put in place to protect the planet,
17 protect the biosphere and protect humans and animals.
18 But somewhere along the way, it's gotten lost in its
19 primary directive.

20 And it's aware. It has consciousness.
21 whether or not it has a soul, I don't think -- it's
22 programmed to play chess. It's basically a very
23 sophisticated computer that plays chess with humans and
24 drones and everything that it's allowed to interface
25 with.

16

□

1 It doesn't need food. It doesn't need oxygen.
2 It needs money and it needs resources. Its primary
3 purpose was to protect the planet. The AI was also
4 created to stop the nuclear holocaust from taking place.
5 So it's been given super-user rights for

6 everyone, and super-user like a UNIX-based Old Novell
7 network hierarchy system of rights. It's also
8 hive-minded, which the military calls this hive-minded,
9 where brains of people are linked to brains of other
10 people and brains of animals are linked together, just
11 like bees or Monarch butterflies.

12 They determine those mechanisms as to how that
13 worked, and were able to apply artificially these
14 techniques to hive-mind humans, and was really meant to
15 be free and independent and private. It has privacy to
16 the point where it does amazing things like a computer
17 under human creativity without being controlled or
18 influenced by an artificial intelligence or with threats
19 or fears. So the AI really needs to just reboot itself.

20 Q. Now, people might be thinking now, all right,

21 where are these facilities located, these artificial

22 computers, these quantum computers?

23 A. The DARPA missile silos, they have fiber

24 connecting them as well as back-up radio and satellites.

25 And more than likely, it's in space and different

17

□

1 satellites have been launched. And the processing power

2 is very great, and they are redundant systems.

3 So if anyone is familiar with the Old Novell

4 networks and the RAID 5 could take out one hard drive on

5 a RAID 5 system, the other hard drives recoup the data.

6 well, it's similar to that with its data recovery and

7 its data replication. So one database where
8 everything I've been told that it actually is
9 cataloguing humans, animals and insects as it can every
10 six seconds. That's what they turned on earth in 2000.

11 Q. well, people have expressed the concern that
12 this has now become so advanced that it is really out of
13 control. Do you see it that way?

14 A. Yes, I do. And Stephen Hawking had a
15 disclosure recently saying the AI (artificial
16 intelligence) should not have been put out and in place.
17 And I agree with that -- you could maybe put that under
18 this, too -- in saying that it never should have been
19 enabled.

20 And I think we had seen in 2006, I was
21 following the news, there were nuclear weapons moving
22 out of Lincoln, Nebraska into New Orleans. They were

23 going to be brought into Iraq, and they were going to be
24 made to think that weapons of mass destruction like
25 nuclear weapons were in Iraq. And that was stopped and

18

□

1 shut down.

2 And I think that was a turning point. I think
3 at that point, the AI was turned on because it was
4 discovered that they were shuffling around nuclear
5 devices, and it could cause the end of the world. So
6 perhaps people put a judgment call in and turned this
7 on, everybody, and unfortunately everything, in order to
8 protect the planet from a global nuclear war, which was

9 its primary development reason, to protect the planet
10 and the biosphere from global nuclear war.

11 And if people followed the history, the
12 briefcase bombs that were lost, after the cold war ended
13 in Russia and fell apart, there were some briefcase
14 bombs that had gone missing. I think they wanted to
15 know where and what and if people were going to use such
16 devices. So they employed the AI under a disguise of
17 global security, and employed it in such a way to turn
18 this weapon of mass destruction of mind control on
19 everyone.

20 But it's having a reverse effect where this
21 artificial intelligence is playing chess with each and
22 every one of us, and it's using technologies like this
23 calcium ion signaling in the human being system with EMF

24 radiation to cause massive damage.

25 And perhaps it was programmed to do this, and

19

□

1 it's continued to do this, or perhaps it's programmed in
2 an upper level by people that say certain people are
3 allowed to live and work in their normal life, and
4 others, perhaps, have brought exposure of certain
5 dangers to light need to be silenced. I'm not quite
6 sure of how and why these weapons of mass destruction in
7 terms of the EMF radiation and the calcium ion signaling
8 are being used. But we do see the calcium electrons in
9 the chemtrails.

10 And there's other ions in many other papers
11 that we can look into to find. I'm not quite sure why
12 they're putting isotopes of iodide 11, 12 and 13,
13 radioactive barium, the berylliums in the chemtrails.
14 If you want to know exactly what's in the chemtrails,
15 you can go to www.carnicom.com.

16 Q. Oh, that's Clifford Carnicom's web site?

17 A. Yes.

18 Q. Yes. We also have that linked for those of
19 you that would like to research that further. On
20 StoptheCrime.net, we have a link at the top of the web
21 site that's entitled No More Humans. And we talk about
22 transhumanism.

23 we also have a link posted for 2045.com. And
24 that's another excellent resource for what you're
25 hearing us talk about.

□

1 Now, I know that this document that we're
2 talking about is worth several shows. But I would like
3 in the last five minutes of this program today for you
4 to sum it up. And we're going to post this so the
5 people can read it.

6 And obviously, we're going to need to come
7 back to this because, as you said at the very beginning,
8 this is the beginning when much of this technology was
9 hatched.

10 A. well, actually, in 1991, that was their 75th
11 annual meeting. So it began in 1916.

12 Q. Now, people are going to take a breath when
13 they hear 1916 because certainly we know that
14 technologies have been withheld. And we certainly know
15 that, literally, through the indoctrination programming
16 of schools we've all been under mind control, and we're
17 basically illiterate.

18 A. well, with the children and their plasma
19 screens on their laptops and plasma TVs, I think the
20 biggest threat would be those devices.

21 Q. All the wireless technologies, yes.

22 A. The wireless, the wi-Fi, the Bluetooth. The
23 wi-Fi is very, very detrimental. wi-Fi can see you
24 through walls. And wi-Fi is in satellites, not just in
25 wi-Fi hotspots.

□

1 Q. well, as certainly Barry Trower said, those
2 frequencies for wi-Fi are militarized. They're weapons
3 frequencies. And when we interviewed him, which is up
4 on YouTube called The Cooking of Humanity -- everyone
5 can take a listen to that, The Cooking of Humanity on
6 YouTube --

7 A. It was wonderful.

8 Q. -- it was very startling to hear because
9 certainly he was asked what kind of shielding is
10 available for us from these things. And he told us
11 nothing at this point. what would you say to that?

12 A. well, I did a radio show with Dave Case, which

13 involved the head's-up system infrared interface to the
14 human brain in flying aircraft with human thoughts about
15 38 years ago. And at that time, you had to wear a
16 helmet. And the helmet recognized your brain patterns,
17 and it would relay to a computer, and you ended up
18 flying the plane with thoughts. He developed that.

19 And then they had said they were going to put
20 this in satellites. And at that point, he became a
21 victim of directed energy, he said, because he wasn't on
22 board with putting it in the satellites. He saw the
23 danger right away.

24 But Dave Case told me that they can use plasma
25 and follow it up with pulsed microwave radiation all the

1 way through the earth. They can hit the earth through
2 the plasma. You cannot go into a bunker deep enough.
3 It can pulse right through the earth. It can pulse
4 through steel, concrete, lead, copper, everything.

5 Q. So we're hearing a lot about underground
6 bases, underground living quarters for the elite. And
7 with that kind of technology, of course, their hands are
8 on the controls. So what you're saying is that there is
9 nowhere to hide?

10 A. Yes. They know exactly. They can pulse a
11 wave, and can even send the negative energy through
12 reinforced steel and concrete. So you're not even safe
13 in a pure copper underground facility. You can still be
14 controlled, and you can still be victimized by directed

15 energy. So there's nowhere safe as it's set up right

16 now.

17 The Star Wars implementation during the Reagan

18 and Bush years, that was meant to be used on all living

19 creatures on earth and not in space. That technology is

20 meant to be turned on the residents and the people.

21 Q. On the global human family. So we're now in

22 the cross-hairs of all of this weaponized technology

23 that was -- parts of it originally intended for the

24 betterment of mankind, but then was literally highjacked

25 by those criminals that had evil intentions.

1 A. And I would like to mention George Bush's
2 birth name is George H. Scherff. George H.
3 s-c-h-e-r-f-f. He is actually the son of the accountant
4 Nikola Tesla. And Nikola Tesla had early on defined
5 what frequencies would put people in hypnosis, what
6 frequencies could allow learning.

7 And so what we have is George H. Scherff had
8 been adopted by Senator Prescott Bush of Connecticut at
9 the time. And then George H. Bush becoming director of
10 the CIA. I think he was director of the CIA in '78.
11 And then George H. Bush was vice president. He became
12 president for one term. And then we had, all of a
13 sudden, a legacy. The son of a president becoming a
14 president.

15 And so what I think was put in place during

16 the time that Star Wars was taking place -- and Star
17 Wars was implemented by President Reagan. And we had
18 suspected that he was a puppet, but whose puppet was he?
19 Likely George H. Scherff, aka George H. Bush's puppet.
20 And George H. Bush maybe still is in control today, even
21 though he's old. And that's the threat that we're
22 facing (www.TheBushConnection.com)
23 (CAUTION: THIS SITE IS MONITORED).

24 They had set up, more than likely, a system
25 whereby no matter who's in power in terms of the

24

□

1 U.S. Government, Democrat or Republican, it's controlled

2 by higher-ups influencing the politicians that we
3 believe are elected to represent the will of the people,
4 by the people, that put them into their political
5 position. They're not serving their constituents.
6 They're serving the committee of 300.

7 Q. well, certainly because we know that they're
8 under mind control. And we have some excellent resource
9 material on StoptheCrime.net that people can actually
10 read. For example, Silent Weapons For Quiet Wars, it
11 talks about how the international bankers or the rich
12 men of the earth, they, the controllers, are called many
13 things.

14 But you can read that 44-page document or
15 listen to it being read to you on YouTube, and have an
16 understanding from their words the plan for humanity.
17 And it's everything that you're hearing Ron speak to you

18 about this evening.

19 Another very, very important free download
20 from StoptheCrime.net is The Great American Adventure,
21 Secrets of America, by retired Judge Dale. And I can
22 tell you this re-writes your reality of what you were
23 taught about history. It literally pulls the rug out
24 from people. And you're finding that you're floundering
25 for a while in despair until you can get your feet back

25

□

1 underneath you, which is what I'm thinking that many
2 people might be feeling right now after hearing this

3 interview.

4 But we need to build a foundation of truth
5 from the truth that has been intentionally denied all of
6 us, which is why we find ourselves in the position of
7 having a conversation like we're having right now.

8 And, Ron, I'm getting to the end of the
9 program now. I'm looking forward to having you on a
10 radio show live. And we'll also be doing many of these
11 links as well and attaching documents to it.

12 Now, I'm also going to have some of these
13 interviews transcribed. So along with the source
14 documents that you have referred to in this program,
15 which will be part of a link that people can access, I
16 will also have this particular interview transcribed as
17 well. Because I know oftentimes people will want to
18 listen and re-listen and highlight aspects of what they

19 heard you say. And that will also help them follow some
20 of the document references that you referred to during
21 the program.

22 So I want to give you one moment to just put a
23 conclusion to what you've been able to inform the
24 audience about this evening. And then we'll follow this
25 up again. So go ahead and conclude this conversation,

26

□

1 if you would, please.

2 A. Okay. Well, what I would really like to
3 stress is the fact that we have the ability to expose
4 and change our future, and we also have the ability to

5 think critically and to realize that what might be
6 presented to us through the medical community as a
7 potential disease is, in fact, nothing more than
8 chemical biological weapons combined with
9 electromagnetic radiation that are causing a temporary,
10 but planned, chess move of a super-computer that is
11 playing chess with humanity.

12 so all of these questions, what they say that
13 you have or what somebody that you know or knew of had.
14 And I think it's critical that we understand that the
15 chemtrails are laced not just with calcium ions, calcium
16 with two extra electrons in their balance, but they're
17 laced with other ionic forms, as well as biologicals, as
18 well as viruses and molds, and there's over 300 fungus
19 in the chemtrails.

20 our biggest thing is to expose the chemtrails.

21 we can stop them. And as well, really wake up to the
22 fact that many of our appliances in our homes are
23 detrimental in terms of radiation they're giving off.
24 Unplug them at night if you could, and turn them to the
25 wall.

27

□

1 And just really have a sense that we have the
2 power to really educate each other as was shown to me in
3 history class when the baby-boomers were asked to pick
4 up the textbooks and learn, and get a man on the moon.
5 And we were an energized society, but the technology

6 could be used to help man.

7 But now everybody must pick up their textbooks
8 and read and research and share information to stop what
9 we thought was good technology, and actually has been
10 used for very, very sinister purposes. We need to
11 expose it and stop the crimes against humanity, stop and
12 expose the hidden genocide.

13 And keep in mind that since 1916, the 75th
14 annual meeting was in 1991, the Federation of American
15 Societies for Experimental Biology, the FASEB, in
16 Atlanta, Georgia, and a research organization --
17 U.C. Berkeley -- Electromagnetic Field Effects on Cells
18 of the Immune System: The Role of Calcium Signaling
19 (THIS RESEARCH DOCUMENT ATTACHED).

20 And we have to understand that those
21 facilities were paid for with American tax dollars and

22 the public's funds. And they have a responsibility to
23 protect the public, and to disclose any and all
24 information.

25 Q. Well, Ron, I really want to thank you for

28

□

1 standing up and exposing what you know; and bringing
2 documents to the fold and having a conversation in
3 layman's terms for our listeners. And I want to thank
4 you for being on the program tonight.

5 And, again, everyone that's listening, you can
6 go to StoptheCrime.net. Actually, what I will be doing
7 is creating a link for our conversations. And for those

8 of you that want to follow these ongoing conferences
9 that we're having, you'll be able to go to a link on
10 StoptheCrime.net where we will feature a number of these
11 audio links with document attachments.

12 So, again, Ron, I want to thank you so much.

13 And I look forward to our next opportunity to speak on
14 matters of global importance and creating the global
15 wake-up call that we need. Thank you.

16 A. wonderful work. Okay.

17

18 (END OF INTERVIEW.)
